**Subject:** RE: Silverton Areas - August Sampling

As you may be aware, they (SGC/Kinross) have expressed interest in overseeing our sampling and collecting splits of select samples. I spoke with Terry regarding our upcoming (aug3) sampling event. Specifically, he was interested in knowing specific start time and how many teams we would be using in areas that they are interested in collecting splits. There were a couple questions about specific sampling methods. The call lasted about 20 minutes.

Dan – It might be good if Liz and I could participate in the call with you. Lets coordinate on this. Thanks.

**Subject:** Silverton Areas - August Sampling

Hi Dan,

I hope this message finds you doing well. With the August sampling event quickly approaching, I have a few questions to discuss with you to help coordinate Sunnyside sample splits and other matters. Are you available today or tomorrow for a quick call?

Thank you,

Terry
